

CONTENTS

| | |
|---------------------------|---|
| Introduction | 5 |
|---------------------------|---|

Chapter 1

| | |
|---|----|
| Sources of pollution | 9 |
| 1.1 Basic concepts..... | 9 |
| 1.2 Anthropogenic pollution sources..... | 10 |
| 1.2.1 Industrial sector | 10 |
| 1.2.2 Transport sector..... | 11 |
| 1.2.3 Agriculture and forestry..... | 11 |
| 1.2.4 Zootechnics (Stock raising)..... | 12 |
| 1.2.5 Residential, commercial and industrial buildings..... | 12 |
| 1.2.6 Solid waste and wastewater disposal..... | 12 |

Chapter 2

| | |
|--|----|
| Atmosphere quality | 13 |
| 2.1 Structure, composition and dynamics of the atmosphere..... | 13 |
| 2.2 Pollutants of the atmosphere..... | 14 |
| 2.3 Dispersion of the atmospheric pollutants..... | 19 |
| 2.4 Global effects of the atmospheric pollution..... | 22 |
| 2.5 Monitoring of the air quality..... | 23 |
| 2.6 Prevention and control of the atmospheric pollution..... | 24 |

Chapter 3

| | |
|--|----|
| Water quality | 27 |
| 3.1 Water sources and its composition..... | 27 |
| 3.2 Self-cleaning of the water..... | 28 |

3.3 Water pollutants and their effects.....29
3.4 Treatment of residual waters.....30

Chapter 4

Soil quality.....33
4.1 Introduction..... 33
4.2 Types of soil pollution..... 34
4.3 Prevention and control of the soil pollution.....37
4.4 Role of forests in the environmental protection.....38

Chapter 5

Protection of the natural resources.....41

Chapter 6

Economics of the environmental protection.....42

References..... 44
