

Innovation Management and Design in Business

Authors' contribution:

Conf. univ. dr. Robert Bumbac -

Chapters 9, 10, 11, 12, 13, 14

Prof. univ. dr. Rodica Pamfilie -

Chapters 1, 3, 5, 8

Prof. univ. dr. Roxana Procopie -

Chapter 2

Conf. univ. dr. Smaranda Giușcă -

Chapter 6

Lect. univ. dr. Maria-Cristina Iorgulescu -

Chapters 4, 7

This volume is the English translation of the book “Managementul inovării și design în afaceri” first published in Romanian by Editura ASE in 2024

Robert Bumbac

TABLE OF CONTENTS

I. Importance of innovation.....	13
Innovation: A pillar of competitiveness and a driver of economic growth	13
The Economic impact of innovation	14
II. Creativity – A precursor to innovation.....	16
Measuring creativity	18
Design as a creative activity.....	19
Creativity and the culture of innovation	21
Organizational support for creativity and innovation	23
Managerial behavior in supporting creativity and innovation.....	24
The role of cross-functional teams in developing innovative products.....	25
III. Definition and classification of innovation	28
Theoretical approaches to the concept of innovation.....	28
Innovation, entrepreneurship and competitiveness	30
Innovation and the research activity	31
Innovation vs. invention	34
Types of innovation	34
IV. Innovation in services	40
Approaches to the concept of service innovation	41
The role of the consumer in service innovation	46
Artificial intelligence and service innovation	50
V. Innovation systems.....	52
Design-led innovation	53
Consumer-centric innovation systems.....	55
Market connection systems with technology	56
VI. Sources of innovation.....	58
Unexpected successes and failures	58
Discrepancies	59
Process needs	60

Industry and market changes.....	61
Demographic changes	61
Perception changes.....	61
Scientific discoveries	62
The design process and innovation	62
The innovation-market relationship	63
VII. The importance of human resources in innovation.....	65
Human resource management practices that stimulate innovation.....	65
The relationship between organizational culture and innovation performance	70
Leadership style – a determinant of innovative behavior	74
VIII. Innovation strategies	78
Concept definitions	78
Classification of innovation strategies	80
The stages of building an innovation strategy.....	81
Continuous adaptation of strategy	83
Factors influencing innovation strategy	83
Strategic innovation	85
IX. Innovation management through innovation models.....	87
The Stage-Gate model	88
The agile innovation model	90
Comparison between Agile innovation and the Stage-Gate model	94
Challenges in agile innovation	94
The lean innovation model.....	95
Design thinking	100
X. Open innovation.....	106
Definitions of open innovation.....	107
Factors contributing to the shift toward open innovation.....	107
Methods for implementing open innovation	108

User innovation	113
Cocreation.....	113
Successful examples of open innovation	114
XI. Radical Innovation.....	120
Conceptual differences	121
The challenge of radical innovation for companies	122
The DARPA model	124
Initiating new DARPA projects.....	127
DARPA Grand Challenge.....	129
DARPA Network Challenge	129
Comparison between the DARPA model and the Stage-Gate model	130
The success of the DARPA model.....	131
XII. Business Model Innovation.....	132
What is a business model.....	132
Creating value	134
Delivering value	135
Monetizing value	135
BM is not strategy.....	136
Transition from product-centric BM to service-centric BM	137
What is BMI.....	138
How to implement BMI.....	139
When is BMI necessary	142
XIII. Measuring innovation.....	145
Selecting innovation proposals.....	146
Establishing the selection mechanism for innovation projects.....	147
Evaluation of the profitability of innovation.....	150
Evaluating the performance of ongoing innovation projects	153
Key Performance Indicators (KPIs) in innovation.....	153
Measuring performance in open innovation	156

Assessing performance/technological changes	156
The “S curve”	156
The “North Star” measurement method	157
The three horizons method.....	159
Technological deflation	159
Innovation measured at the macro level	160
Intangible benefits of innovation projects	163
XIV. Trends and futurism	164
The importance of a future perspective	164
Megatrends.....	166
Demographic changes	166
Singularity.....	166
Artificial Intelligence	167
Decarbonization and sustainable innovation.....	167
The exponential growth of new technologies	168
Neuroscience and the direct human-machine connection.....	169
Machine learning and neural networks.....	171
Many other new technologies	172
Bibliography	175
